HOW SECURE IS YOUR DATA?

1. Your data is secure in the cloud. A recent Microsoft study revealed that 94 per cent of businesses **gained** new security benefits after moving
2. Cloud accounting software providers use bank grade encryption to protect and store your data online
3. Online backup ensures you won't lose your data – even if your PC, laptop or tablet gets lost or stolen
4. Data storage centres have military-grade 24/7 security monitoring and proactive physical and cyber threat management
5. Multi-factor authentication ensures that data is not compromised by phishing threats.

"1Above has a number of legal entities around the world, each of which requiring stand-alone accounts. 1Above use Xero to keep on top of everything. "It's easy to set up new Xero entities and we really love how straight forward the reports are to use, we can drill down on any aspect and report in different currencies."
